Owner/Instructor

Sally Goodman June

As a teacher, I want to help people become mindful of their bodies and realize the benefits of including regular Yoga practice into their lives.

Yoga is a journey, and that journey is different for every person. Yoga teaches you to honor your body and become more aware and mindful of how your body moves, and how your mind and breathing can affect your body both positively and negatively.

I want to give every student that walks through my door skills that they can use in their daily lives to make their lives more enjoyable.

Yoga really is for every *body*.
